**EMERGENCY RULE**

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.
- That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal year 2009, 2010, 2011, 2012, or 2013, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Reasons for this finding: Based on modest angler participation and harvest rates during an initial four day pilot fishery and a continuing availability of hatchery origin fish to provide for harvest opportunity, an additional three day fishery will be opened in the Washington portion of the lower Grande Ronde River. The Washington fishery will run concurrently with a Chinook fishery opening on the Oregon portion of the Grande Ronde River. There is insufficient time to adopt permanent rules.
