EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.
- That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal year 2009, 2010, 2011, 2012, or 2013, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Reasons for this finding: Washington Department of Fish and Wildlife biologists have continued to assess the most recent monitoring data from Area 10. Puget Sound chum salmon runs are predicted to return as forecast, and WDFW biologists estimate minimal impacts to sublegal chinook by opening to chum salmon retention in the Marine Area 10 recreational fishery. Anglers must continue to release all Chinook and coho salmon in the Marine Area 10 recreational fishery per the emergency rule WSR 15-21-054 enacted on October 19. There is insufficient time to adopt permanent rules.
