EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.
- That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal year 2009, 2010, 2011, 2012, or 2013, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Reasons for this finding: The updated forecast to estimate steelhead abundance indicates that hatchery-origin steelhead in excess of desired escapement and ample numbers of natural-origin steelhead to implement a fishery will return to the above sections of the upper Columbia River and tributaries. The fishery will reduce the number of excess hatchery-origin steelhead and consequently increase the proportion of natural-origin steelhead on the spawning grounds. Allowing retention of hatchery steelhead and rainbow trout will provide for additional angling opportunity. There is insufficient time to adopt permanent rules.
