EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.
- That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal year 2009, 2010, 2011, 2012, or 2013, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Reasons for this finding: Sets a limited Columbia River commercial fishery for eulachon smelt. The regulation is consistent with a reduced Level One fishery as described in the "Washington and Oregon Eulachon Management Plan" for the Columbia River. Returns of eulachon to the Columbia River have improved since 2010, with a moderately large return expected in 2016. The fishery serves as an important test fishery to monitor run strength and timing and to collect biological data. NOAA Fisheries concurs that the limited fishery is consistent with recovery of eulachon smelt. Rule is consistent with Columbia River Compact action of January 27, 2016. There is insufficient time to adopt permanent regulations.
