- That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal year 2009, 2010, 2011, 2012, or 2013, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Attachment

Allows sales of fish in during the treaty commercial gillnet fisheries in SMCRA 1F,1G, 1H commonly known as Zone 6. The regulation continues to allow the sale of fish caught in Zone 6 Columbia River tribal net, platform and hook and line gear, in the Yakama Nation tributary fisheries when open under Yakama Nation regulations and in the area downstream of Bonneville Dam (SMCRA 1E1) when open under tribal regulations. The inseason update for fall Chinook is 860,200 fish. Fisheries are consistent with the 2008-2017 Management Agreement and the associated Biological Opinion. Rule is consistent with action of the Columbia River Compact on July 27 and September 22, 2016. Conforms state rules with tribal rules. There is insufficient time to promulgate permanent regulations.

The Yakama, Warm Springs, Umatilla, and Nez Perce Indian Tribes have treaty fishing rights in the Columbia River and inherent sovereign authority to regulate their fisheries. Washington and Oregon also have some authority to regulate fishing by treaty Indians in the Columbia River, authority that the states exercise jointly under the Congressionally-ratified Columbia River Compact. Sohappy v. Smith, 302 F. Supp. 899 (D. Or. 1969). The Tribes and the States adopt parallel regulations for Treaty Indian fisheries under the supervision of the federal courts. A court order sets the current parameters. United States v. Oregon, Civil No. 68-513-KI (D. Or.), Order Adopting 2008-2017 United States v. Oregon Management Agreement (Aug. 12, 2008) (Doc. No. 2546). Some salmon and steelhead stocks in the Columbia River are listed as threatened or endangered under the federal Endangered Species Act. On May 5, 2008, the National Marine Fisheries Service issued a biological opinion under 16 U.S.C. § 1536 that allow for some incidental take of these species in the fisheries as described in the 2008-2017 U.S. v. Oregon Management Agreement. Columbia River fisheries are monitored very closely to ensure consistency with court orders and Endangered Species Act guidelines. Because conditions change rapidly, the fisheries are managed almost exclusively by emergency rule. As required by court order, the Washington and Oregon Departments of Fish and Wildlife convene public hearings and invite tribal participation when considering proposals for new emergency rules affecting treaty fishing rights. Sohappy, 302 F. Supp. at 912. WDFW and ODFW then adopt regulations reflecting agreements reached.
