**EMERGENCY RULE**

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.
- That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal year 2009, 2010, 2011, 2012, or 2013, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

**Reasons for this finding:** This emergency rule is needed to open the northern 5 miles of the Quinault Special Management Area (SMA) and creates a new secondary SMA with a new northern boundary line. It also implements a 200-pot limit for the first 30-days in the newly opened area. Provisions in state/tribal management agreements will be achieved by the opening dates contained herein. The Special Management Areas are listed in accordance with state/tribal management agreements. There is insufficient time to adopt permanent rules.
