EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.
- That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal year 2009, 2010, 2011, 2012, or 2013, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Reasons for this finding: Preliminary estimates indicate that anglers had caught 4,642 fish, or 83 percent, of the Chinook quota of 5,599 fish for Marine Area 9 through Thursday. Washington Department of Fish and Wildlife anticipates reaching the quota for this fishery by the end of the day Sunday. The changes to the Chinook fishery are in compliance with conservation objectives and agreed-to management plans. There is insufficient time to adopt permanent rules.
