EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
 That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: This regulation provides for Pacific Salmon Commission authorized fisheries in Areas 7 and 7A targeting the US share of Fraser River pink salmon in conjunction with target removal of Atlantic salmon a non-native species. Cooke Aquaculture Pacific, the owner of net pen facility near Cypress Island, WA (near the San Juan Islands) has indicated that structural damage to one of their Atlantic salmon net pens resulted in the escape of Atlantic salmon adults. There is insufficient time to adopt permanent rules.
