EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: Lagging steelhead returns during the summer of 2017 led fisheries managers to close or reduce daily limits for steelhead fisheries in most of the Columbia River and its tributaries. Recent upturns in the abundance of migrating steelhead over Bonneville Dam and the Snake River Dams indicates to fisheries managers that there are adequate numbers of wild and hatchery Group A steelhead to allow for increasing steelhead harvest opportunities during the Fall 2017 and Winter 2018 in the Snake River and select tributaries to the Snake River. There is insufficient time to adopt permanent rules.
