EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
 That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: The provisions of this rule will close Puget Sound Region 1 as outlined above. This area is closing early to allow for the use of the remaining allocation during a future opener. All remaining Puget Sound commercial crab Regions will remain open at a 50 pots per license limit. These provisions are in conformity with agreed management plans with applicable tribes. These management plans were entered into as required by court order. The Puget Sound commercial season is structured to meet harvest allocation objectives negotiated with applicable Treaty tribes and outlined in the management plans. There is insufficient time to adopt permanent rules.
