EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: This emergency regulation is necessary, as the mandatory pick rate allowance for coastal crab will be achieved by the opening dates contained herein. The stepped opening periods/areas will also provide for fair start provisions. Pot limits will reduce the crowding effect in this restricted area and language improves enforcement of pot limits. A longer gear set period will allow for safer fishing conditions. A delay due to elevated marine toxins aligns with the Tri-State Crab Agreement and similar rules in Oregon and California. There is insufficient time to adopt permanent rules.
