EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: This rule opens an additional five miles of the Quinault Special Management Area to state fishers and implements a 100-pot limit in the newly opened area as result of recent data sharing between State-Quinault fishery managers and policy leaders. This emergency rule also continues the closure of the Quileute Special Secondary Management Area as provided in the State-Quileute Harvest Management Agreement. There is insufficient time to adopt permanent rules.
