Other authority: *United States v. Oregon*, Civil No. 68-513-KI (D. Or.), Order Adopting 2008-2017 *United States v. Oregon* Management Agreement (Aug. 12, 2008) (Doc. No. 2546); *Northwest Gillnetters Ass'n v. Sandison*, 95 Wn.2d 638, 628 P.2d 800 (1981); Washington Fish and Wildlife Commission policies concerning Columbia River fisheries; 40 Stat. 515 (Columbia River Compact).

EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
 That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: Continues the treaty fishery for commercial sales to Washington wholesale buyers and the public. Harvestable fish are available under the current harvest guidelines. The season is consistent with the 2008-2017 Management Agreement and the associated Biological Opinion. Rule is consistent with action of the Columbia River Compact on June 5, 2018 and June 28, 2018. Conforms state rules with tribal rules. There is insufficient time to promulgate permanent regulations.

The Yakama, Warm Springs, Umatilla, and Nez Perce Indian Tribes have treaty fishing rights in the Columbia River and inherent sovereign authority to regulate their fisheries. Washington and Oregon also have some authority to regulate fishing by treaty Indians in the Columbia River, authority that the states exercise jointly under the Congressionally-ratified Columbia River Compact. *Sohappy v. Smith*, 302 F. Supp. 899 (D. Or. 1969). The Tribes and the States adopt parallel regulations for Treaty Indian fisheries under the supervision of the federal courts. A court order sets the current parameters. *United States v. Oregon*, Civil No. 68-513-KI (D. Or.), Order Adopting 2008-2017 *United States v. Oregon* Management Agreement (Aug. 12, 2008) (Doc. No. 2546). Some salmon and steelhead stocks in the Columbia River are listed as threatened or endangered under the federal Endangered Species Act. On May 5, 2008, the National Marine Fisheries Service issued a biological opinion

under 16 U.S.C. § 1536 that allows for some incidental take of these species in the fisheries as described in the 2008-2017 U.S. v. Oregon Management Agreement.

Columbia River fisheries are monitored very closely to ensure consistency with court orders and Endangered Species Act guidelines. Because conditions change rapidly, the fisheries are managed almost exclusively by emergency rule. As required by court order, the Washington and Oregon Departments of Fish and Wildlife convene public hearings and invite tribal participation when considering proposals for new emergency rules affecting treaty fishing rights. Sohappy, 302 F. Supp. at 912. WDFW and ODFW then adopt regulations reflecting agreements reached.
