EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
 That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: Department of Health has closed the Burrows Bay growing area due to high Paralytic Shellfish Poisoning test results, a harvestable surplus of pink and spiny scallops exists in the areas specified, and small landings for the purpose of public health testing should be allowed in Approved and Restricted growing areas during summer months. There is insufficient time to adopt permanent rules.
