**EMERGENCY RULE**

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.  
 That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

**Reasons for this finding:** The 2018 State/Tribal Shrimp Harvest Management Plans for the Strait of Juan de Fuca and Puget Sound require adoption of harvest seasons contained in this emergency rule. This emergency rule (1) opens the pot fishery season for spot shrimp; (2) implements a shrimp weekly limit for all areas; (3) implements a minimum mesh size restriction for spot shrimp gear; (4) opens the 1B-21A trawl fishery season; (5) closes Shrimp Management Area (SMA) 1A, SMA 5, SMA 1C and SMA 3 (25A) to spot prawn harvest; (6) sets a weekly trip limit of 600 pounds for spot shrimp (7) sets a weekly spot prawn weekly limit of 300 pounds for SMA 1B or SMA 3 (23A-C, 23D); and (9) maintains the previous regulations and restrictions for the non-spot trawl and pot fisheries. There is insufficient time to adopt permanent rules.
