EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: The 2018 State/Tribal Shrimp Harvest Management Plans for the Strait of Juan de Fuca and Puget Sound require adoption of harvest seasons contained in this emergency rule. This emergency rule: (1) closes the commercial spot shrimp fishery for the season. (2) Implements a non-spot weekly limit per fisher for the remaining open areas of 800 pounds. (3) Restricts the non-spot landings in SMA 1 to a maximum weekly limit of 500 pounds. (4) Retains the opening of the 1B-21A trawl fishery season. (5) Maintains the closure of SMA 3 (25A) to all shrimp trawl fishing. (6) Maintains other previous provisions and restrictions for the non-spot trawl and pot fisheries. There is insufficient time to adopt permanent rules.
