EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: This emergency rule is necessary because hatchery steelhead smolts released in the spring of 2016 and spring of 2017 into the Hoko river were not fin clipped. These fish will begin returning in the coming winter. Dorsal fin heights of hatchery reared steelhead are shorter than comparably sized wild steelhead. The standard of 2 1/8th inches has been used elsewhere to identify hatchery steelhead when fin clips are lacking. There is insufficient time to adopt permanent rules.
