EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: This rule sets a limited Columbia River recreational fishery for eulachon smelt. The regulation is consistent with a conservative research-level fishery, reduced from the Level-One fishery as described in the "Washington and Oregon Eulachon Management Plan" for the Columbia River. The expected return of eulachon to the Columbia River in 2020 is expected to be similar in magnitude to the run in 2019. The fishery serves as an important test fishery to monitor run strength and timing and to collect biological data. NOAA Fisheries concurs that a limited fishery is consistent with recovery of eulachon smelt. There is insufficient time to adopt permanent regulations.
