EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: The 2020 State/Tribal Shrimp Harvest Management Plans for the Strait of Juan de Fuca and Puget Sound require adoption of harvest seasons contained in this emergency rule. This emergency regulation is required to allow adequate flexibility for the state commercial shrimp fisheries to respond to dynamic changes in market conditions and ongoing changes of public health practices arising from the global COVID-19 pandemic. Sections of this regulation add additional reporting requirements to allow managers to track commercial fishing effort and to limit interaction between the State commercial harvesters and recreational users. There is insufficient time to adopt permanent rules.
