EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: This rule is needed to open summer Chinook seasons in the Columbia River from the I-182 Bridge to Priest Rapids Dam. The U.S. v Oregon Technical Advisory Committee (TAC) updated the summer Chinook run from a pre-season value of 38,000 to 65,000. At this updated run size there are more surplus hatchery fish available for harvest. The TAC is comprised of representatives from Washington, Oregon, Idaho, NOAA, and the Treaty Tribes and are responsible for developing pre-season and in-season run forecasts that salmon seasons are based on. There is insufficient time to adopt permanent rules.
