**EMERGENCY RULE**

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

**Reasons for this finding:** This regulation is needed to ensure an orderly fishery, manage the fishery within court-ordered sharing requirements, and ensure conservation. This rule opens Marine Areas 6, 7E, 7W and 9 on specified days in August to harvest remaining spot shrimp quota in these areas. Additionally, this rule maintains areas currently open to the harvest of non-spot shrimps using 1/2 inch mesh pots with depth restrictions specific to each marine area. This emergency regulation allows spot and non-spot shrimp opportunities to take place one hour before sunrise to one hour after sunset, which is the default daily times for those areas by permanent rule. Marine Areas 6 (within the Discovery Bay Shrimp District), 7S, 10, and 12 remain closed because quotas have been attained. Marine Area 13 will remain closed for spot shrimp for conservation reasons. There is insufficient time to adopt permanent rules.
