EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
 That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: The 2020 State/Tribal Shrimp Harvest Management Plans for the Strait of Juan de Fuca and Puget Sound require adoption of harvest seasons contained in this emergency rule. This emergency rule (1) defines the shrimp management areas and Regions open to spot and non-spot commercial harvest; (2) sets harvest restrictions for the non-spot commercial pot fishery; (3) sets harvest restrictions for the spot commercial pot fishery; (4) sets the harvest and gear limitations for the Puget Sound shrimp trawl fishery; (5) requires purchase of shrimp harvested by the designated fisheries to be done by appropriately licensed dealers; (6) opens Shrimp Management Areas 1A and 1B for harvest of spot shrimp with a specified catch limit; (7) closes Catch Area 23A-W to harvest of spot shrimp because commercial quota has been met; (8) changes the catch limits and dates for the third spot shrimp accounting period to allow harvest in specific areas between 08/26/2020 and 09/8/2020; and (9) sets area-based sub limits to meter and disperse effort. This additional catch accounting period will provide an opportunity to target some of the remaining available resource before the end of the season on September 15, 2020. Additionally, this adjustment streamlines WDFW staff workflow and optimizes the economic utility of the commercial share of the resource.
