Purpose:

This rule closes trawl non-spot shrimp harvest in SMA 1B and pot non-spot shrimp harvest in Region 1 due to the attainment of quota.

In addition, this regulation includes previous emergency regulation amendments:

1. Defines the Shrimp Management Areas and Regions open to non-spot shrimp commercial harvest;
2. Sets the harvest and gear limitations for the Puget Sound shrimp trawl fishery;
3. Requires purchase of shrimp harvested by designated fisheries to be done by appropriately licensed dealers.

EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: The 2020 State/Tribal Shrimp Harvest Management Plans for the Strait of Juan de Fuca and Puget Sound require adoption of harvest seasons contained in this emergency rule. This rule does the following:

- 1) Closes the non-spot pot fishery with SMA's 1A, 1B, and 1C on September 27, 2020 or when the remaining 289 lbs. of quota are harvested, whichever comes first; and
- 2) Closes SMA 1B to trawl harvest of non-spot shrimp due to the attainment of quota.

Immediate adoption of this rule is necessary for the preservation of the public health, safety, or general welfare. Observing the requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest. There is insufficient time to adopt permanent rules.
