EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: The U.S. v. Oregon Technical Advisory Committee recently updated the 2021 Columbia River spring Chinook return to 91,800, which was previously forecasted to be 87,000. The upriver Skamania stock steelhead passage at Bonneville Dam is currently the lowest cumulative count to-date. Additional spring Chinook directed angling opportunities are available while providing additional protection for steelhead with a reduced steelhead daily limit. Modifications are in conjunction with the Columbia River Compact hearing held at 1:00 p.m. on June 10, 2021. This action also applies summer fishery regulations developed through the 2021 North of Falcon season setting process. There is insufficient time to promulgate permanent regulations.
