EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
 That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding:

- (1) Closes Sub-area 23A-C of Marine Fish/Shellfish Catch Area 23A and MFSF Catch Area 23B to commercial spot harvest effective August 14, 2021.
- (2) Opens Sub-area 23A-C of Marine Fish/Shellfish Catch Area 23A to commercial non-spot harvest effective August 15, 2021.
- (3) Closes Shrimp Management Area 2E to all commercial shrimp harvest.
- (4) Defines the shrimp management areas and Regions open to spot and non-spot commercial harvest.
- (5) Defines spot pot gear requirements.
- (6) Defines non-spot gear requirements.
- (7) Implements labeling requirements for groundline pot gear.
- (8) Implements restrictions for the concurrent use of spot shrimp and on-spot shrimp pot gear.
- (9) Implements a fishing declaration requirement for all shrimp pot fisheries in Puget Sound.
- (10) Sets harvest restrictions for and opens the non-spot commercial pot fishery.
- (11) Sets harvest restrictions for and opens the spot commercial pot fishery.
- (12) Sets the harvest and gear limitations for and opens the Puget Sound shrimp trawl fishery.
- (13) Requires purchase of shrimp harvested by the designated fisheries to be done by appropriately licensed dealers.

The emergency regulation closes spot shrimp pot harvest in sub-area 23A-C of Marine Fish/Shellfish Catch Area 23A and MFSF Catch Area 23B due to projected quota attainment on August 14, 2021 at 11:59 p.m. This regulation also opens non-spot harvest in sub-area 23A-C of Marine Fish/Shellfish Catch Area 23A at 12:00 a.m. on August 15, 2021. This regulation also maintains the closure of Shrimp Management Area 2E to all commercial shrimp harvest. Sections of this regulation define open areas to allow adequate flexibility for the state commercial shrimp fisheries to respond to dynamic changes in market conditions and to allow for full utilization of both the commercial spot and non-spot shares while also achieving the 50/50 harvest defined by the Federal Court Order. Sections of this regulation add additional reporting requirements to allow managers to track commercial fishing effort. There is insufficient time to adopt permanent rules.
