EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: There is sufficient allocation available in 3-2 to accommodate harvest through November 19, 2021. There is sufficient allocation available in 2-West, 3-1, and 3-3 to accommodate continued commercial harvest. These provisions are in conformity with agreed regional management plans with applicable tribes or in accordance with procedures proscribed in the Shellfish Implementation Plan when no annual regional management plan agreement has been reached. These management plans are entered into as required by court order. The Puget Sound commercial season is structured to meet harvest allocation objectives negotiated with applicable Treaty tribes and outlined in the management plans. Further adjustment of season structure may be made pending updated harvest data. Changes to filing WSR 21-22-101 will make this emergency rule more enforceable. There is insufficient time to adopt permanent rules.
