EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: This emergency rule is necessary to correct the filing of WSR 22-01-080. The previous filing specified opening commercial harvest in District 2-2, this rule corrects the District to Districts 1 and 2.

This rule opens commercial harvest of sea cucumbers in catch reporting areas 23B, 25A, 25B, 25C, 25D, and 25E of sea cucumber management Districts 1 and 2. The quota in this area has been increased by 10,800 pounds per co-manager agreement. Opening commercial seasons in District 1 and 2 with a 700-pound weekly limit, with the expectation of 15 licenses participating, is consistent with and designed to fall within co-manager agreed management plans. Harvestable surpluses of sea cucumbers exist in the districts specified.

Immediate adoption of this rule is necessary for the preservation of the public health, safety, or general welfare. Observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to public interest. There is insufficient time to adopt permanent rules.
