**Purpose of the proposal and its anticipated effects, including any changes in existing rules:** The proposed rules were developed through the annual North of Falcon salmon season setting process, which began in January 2022, and provide the season schedule for the 2022 commercial fisheries in Puget Sound.

These proposed rules regulate the commercial fisheries in Puget Sound and are part of a comprehensive rulemaking package to implement the new 2022-23 salmon seasons for Washington State developed through the broader North of Falcon process pursuant to the Fish and Wildlife Commission’s North of Falcon Policy C-3608 for 2019-2023. As such, the

seasons specified in these proposed rules are structured in a coordinated manner intended to provide commercial and recreational fishing opportunities in Puget Sound while ensuring conservation requirements and management objectives in federal and state laws and regulations, state/tribal harvest management agreements, and Fish and Wildlife Commission policies are met. Even though drafted as amendments to preceding rules, these new amendments function as a coordinated and unitary fishery package for the 2022-23 fishery season, and thus substantively replace prior years' fisheries in Puget Sound. Comments should be considered and provided with that understanding.

The intent of this rulemaking proposal is to replace and supersede the language in these WACs entirety:

- WAC 220-354-080 Puget Sound salmon - Closed Areas
- WAC 220-354-120 Puget Sound salmon - Purse seine – Open periods
- WAC 220-354-160 Puget Sound salmon - Gillnet – Open periods
- WAC 220-354-180 Puget Sound salmon - Reef net – Open periods
- WAC 220-354-210 Puget Sound salmon - Beach seine – Open periods

WDFW is proposing specific revisions to these rules to describe the seasons and dates for these fisheries for 2022, however, all of the provisions encompassed within the WACs listed above are available for public review and comment, and WDFW will consider all public comments received on this rulemaking.

**Reasons supporting proposal:** The proposed rules were developed through the annual North of Falcon salmon season setting process, which is an extensive stakeholder engagement process to develop and analyze various season options for recreational, commercial, and tribal fisheries for the current year. It is named "North of Falcon" as it includes setting the salmon seasons for the area north of Cape Falcon, Oregon, which is located at 45 degrees N. latitude.

The North of Falcon process typically begins in January and consists of government-to-government meetings involving the National Marine Fisheries Service (NMFS), treaty tribes, and WDFW representatives. Separate meetings are held with stakeholders—both at a statewide and regional level—to review preseason run size forecasts, NMFS guidance relative to allowable impacts for species listed under the Endangered Species Act (ESA), which includes salmon, but other protected species as well, such as southern resident killer whales.

Ocean fishery seasons are developed through the Pacific Fishery Management Council process, which is concurrent with and part of the broader North of Falcon process, with meetings in early March and early April. Ocean fishery options are also analyzed and considered in light of potential ESA-listed species impacts and state/tribal harvest agreements and are also reviewed for consistency with the Pacific Salmon Treaty. . Meeting schedules and information can be found on the agency's website at: <https://wdfw.wa.gov/fishing/management/north-falcon>

Stakeholder meetings specific to the Puget Sound fisheries were held in February and March. The comprehensive North of Falcon meeting schedule and the meeting agendas, handouts, and audio recordings of the public meetings are available on WDFW's website at: <https://wdfw.wa.gov/fishing/management/north-falcon/public-meetings>

No: Please explain: The proposed rule is exempt under RCW 34.05.328(5)(a)

**Regulatory Fairness Act Cost Considerations for a Small Business Economic Impact Statement:**

This rule proposal, or portions of the proposal, **may be exempt** from requirements of the Regulatory Fairness Act (see chapter 19.85 RCW). Please check the box for any applicable exemption(s):

This rule proposal, or portions of the proposal, is exempt under RCW 19.85.061 because this rule making is being adopted solely to conform and/or comply with federal statute or regulations. Please cite the specific federal statute or regulation this rule is being adopted to conform or comply with, and describe the consequences to the state if the rule is not adopted.

Citation and description:

This rule proposal, or portions of the proposal, is exempt because the agency has completed the pilot rule process defined by RCW 34.05.313 before filing the notice of this proposed rule.

This rule proposal, or portions of the proposal, is exempt under the provisions of RCW 15.65.570(2) because it was adopted by a referendum.

This rule proposal, or portions of the proposal, is exempt under RCW 19.85.025(3). Check all that apply:

- RCW 34.05.310 (4)(b) (Internal government operations)
- RCW 34.05.310 (4)(c) (Incorporation by reference)
- RCW 34.05.310 (4)(d) (Correct or clarify language)
- RCW 34.05.310 (4)(e) (Dictated by statute)
- RCW 34.05.310 (4)(f) (Set or adjust fees)
- RCW 34.05.310 (4)(g) ((i) Relating to agency hearings; or (ii) process requirements for applying to an agency for a license or permit)

This rule proposal, or portions of the proposal, is exempt under RCW 19.85.025(4) – This chapter does not apply to the adoption of a rule if an agency is able to demonstrate that the proposed rule does not affect small businesses..

Explanation of exemptions, if necessary: The department is exempt from the requirements of RCW Chapter 19.85 because, while WDFW considers commercial fishers to be a “small business,” the commercial fishing rules proposed for 2022-2023 do not affect these small businesses by imposing new direct costs of regulatory compliance. These rule changes clarify dates for anticipated open periods and areas for full-fleet and limited-participation salmon fisheries, and legal gear requirements for those fisheries. There are no new anticipated professional services required to comply. Based on the department’s analysis, the proposed rules do not require any new or additional equipment, supplies, labor, or administrative costs.

**COMPLETE THIS SECTION ONLY IF NO EXEMPTION APPLIES**

If the proposed rule is **not exempt**, does it impose more-than-minor costs (as defined by RCW 19.85.020(2)) on businesses?

- No Briefly summarize the agency’s analysis showing how costs were calculated.
- Yes Calculations show the rule proposal likely imposes more-than-minor cost to businesses, and a small business economic impact statement is required. Insert statement here:
