**Any other findings required by other provisions of law as precondition to adoption or effectiveness of rule?**

- Yes  No If Yes, explain:

**Purpose:** The provisions of this emergency rule:

WAC 220-340-42000F

- 1) Requires all crab harvested to be delivered to an original receiver or recorded on a shellfish transportation ticket within 36 hours of harvest. Requires separate transportation tickets to be completed for each day's harvest not delivered to an original receiver that is stored off the fishing vessel. Implements a 10-day restriction on the length of time that crab may be stored off vessel before being delivered to an original receiver.
- 2) Implements a labeling requirement for crab that are stored off-vessel.
- 3) Implements a labeling requirement for crab that are stored off-vessel and not delivered to an original receiver within 36 hours.

WAC 220-340-45500K

- 2) Closes Puget Sound commercial crab harvest in Region 3-1 effective March 25 due to projected quota attainment. Opens Region 3-4 effective March 24 due to a quota transfer allowing additional harvest. Maintains closures for Crab Management Regions 1, 2 East, 2 West, and 3-2.
- 3) Closes Port Angeles Harbor to commercial crab harvest due to public health decrees.
- 4) Repeals areas where recreational and tribal harvest has been allowed that State commercial harvest has been historically limited.

**Other authority:**

**EMERGENCY RULE**

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

**Reasons for this finding:** Commercial crab harvest in Crab Management Region 3-1 will close effective March 25 due to projected quota attainment. Region 3-4 will open March 24 for the harvest of additional quota. Sufficient harvest quota remains available in region 3-3 to accommodate continued commercial harvest.

Rules are consistent with co-manager agreed regional management plans and in accordance with procedures outlined in the Shellfish Implementation Plan for circumstances when agreement to annual regional management plans has not been reached. These management plans are entered into as required by court order. The WDFW managed Puget Sound commercial Dungeness crab season is structured to meet harvest allocation objectives negotiated with applicable Treaty tribes and outlined in these management plans. Further adjustment of season structure may be made pending updated harvest data.

There is insufficient time to adopt permanent rules.
