EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: This emergency rule is necessary because more than 12 percent of the Chinook guideline in Catch Record Card Area 4 was taken on the first two open days of the season (June 18 and 19, 2022). A reduction in the Chinook daily limit is necessary to preserve the season length while avoiding exceedance of the Chinook guideline and maximizing catch of the available coho quota.

This rule also maintains other recreational salmon seasons in Catch Record Card Areas 1-3, previously set by WSR 22-13-143.

These rules for in-state waters are consistent with federal salmon fishing regulations adopted by the National Marine Fisheries Service in response to actions taken by the Pacific Fishery Management Council (PFMC) to set salmon fishery harvest specifications and management measures; this action is intended to achieve regulatory consistency in federal and state waters for the ocean recreational salmon fishery, which operates in both areas.

There is insufficient time to adopt permanent rules.
