**EMERGENCY RULE**

Under RCW 34.05.350 the agency for good cause finds:
- ☒ That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- ☐ That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

**Reasons for this finding:** This emergency rule is needed because Neah Bay has harvested a significant portion of its Chinook quota, and closure of waters east of the Bonilla-Tatoosh line and subsequent closure of the entire area should reserve some Chinook quota for reopening the Area later in the summer when more coho salmon are present. Modification of the daily limit for Area 3 is to ensure that that Chinook quota in that area is not consumed quickly as more Chinook move through the area, and fishing effort potentially increases due to closure of Area 4.

This rule also maintains previously established recreational salmon seasons in Areas 1 and 2.

These rules for in-state waters are consistent with federal salmon fishing regulations adopted by the National Marine Fisheries Service in response to actions taken by the Pacific Fishery Management Council (PFMC) to set salmon fishery harvest specifications and management measures; this action is intended to achieve regulatory consistency in federal and state waters for the ocean recreational salmon fishery, which operates in both areas.

There is insufficient time to adopt permanent rules.
