EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
 That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: This regulation is needed to ensure an orderly fishery, manage the fishery within court-ordered sharing requirements, and ensure conservation. Harvestable amounts of spot shrimp are available, but recreational shares will only support a limited number of days in the Marine Areas listed in this section. In addition, this emergency regulation opens the Marine Area 4 (east of the Bonilla-Tatoosh line), 5, 6, and 7 West seasons one hour before sunrise to one hour after sunset, which is the default daily start time and end time for those areas. This regulation opens the recreational non-spot shrimp fisheries on the dates listed for Marine Areas 8-1, 8-2 and 7 East and maintains the recreational non-spot shrimp fishery already open in Marine Areas 9, 11 and 13. The non-spot shrimp fisheries have maximum depth restrictions specific to each area to limit capture and handling of spot shrimp. Spot shrimp must be immediately released unharmed during non-spot shrimp seasons. There is insufficient time to adopt permanent rules.
