EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: A harvestable quota of salmon is available for the troll fleet. This regulation is necessary to both meet conservation limits and to provide fishing opportunity and its corresponding economic benefit. A reduction in the remaining quota for the troll fishery was implemented in conjunction with this change to ensure that allowing catch of unmarked coho will not increase impact on wild coho stocks. These rules are adopted at the recommendation of the Pacific Fisheries Management Council, in accordance with preseason fishing plans, and have been adopted for federal waters by the National Oceanic and Atmospheric Administration. There is insufficient time to adopt permanent rules.
