EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: This rule is necessary to set a new closure date for the commercial crab fishery in Crab Management Region 2-East. Previously, WDFW estimated that commercial shares would be obtained January 3, 2022. However, the harvest over the holiday weekend was lower than anticipated and there is sufficient share to remain open until January 6, 2023.

There is sufficient allocation available in Regions 1, 2-East, 2-West, and subregions 3-1, 3-3, and 3-4 to accommodate continued commercial harvest. These provisions are in conformity with agreed management plans with applicable tribes. These management plans are entered into as required by court order. The Puget Sound commercial season is structured to meet harvest allocation objectives negotiated with applicable Treaty tribes and outlined in the management plans. Further adjustment of season structure may be made pending updated harvest data. There is insufficient time to adopt permanent rules.
