EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
 That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: This rule is needed to close the recreational white sturgeon retention seasons in The Dalles and John Day reservoirs.

Projected white sturgeon harvest for The Dalles Pool, through January 25, is 184 of the 190 fish guideline. It is projected that the 2023 The Dalles Reservoir harvest guideline may be exceeded if the fishery were to continue beyond January 25.

Projected catch for John Day Pool, through January 29, is 101 of the 105 fish guideline. It is projected that the 2023 John Day Reservoir harvest guideline may be exceeded if the fishery were to continue beyond January 29.

These populations are managed under sustainable harvest guidelines and this action is intended to keep harvest within that guideline. This action is consistent with decisions made by the States of Washington and Oregon during Columbia River compact hearings on November 9, 2022, January 10, and January 24, 2023.

The public welfare is protected with the immediate and limited duration opening of recreational sturgeon fishing. This limited harvest allows for public use of the resource as well as the maintenance of a sustainable fish population. There is insufficient time to adopt permanent rules.
