Purpose of the proposal and its anticipated effects, including any changes in existing rules:

WAC 220-412-100 Landowner hunting permits.

The proposed amendments to this WAC section address one landowner, the Centralia Mine. The primary purpose of this proposal is to move away from narrow harvest seasons that require annual adjustments to WAC 220-412-100 to broader season timeframes based on the landowner's staff availability. Additionally, due to the landscape conditions, the landowner's insurance requires that hunters only use rifles when hunting on the mine lands. The proposed change also adds this requirement not previously addressed in the rule.

1. Modification of the Centralia Mine elk hunt dates as listed below:
 - a. Senior Only, Antlerless from September 3-11 to proposed dates of September 1 - October 15. This change will lengthen the hunting season.
 - b. Disabled Only, Antlerless from September 17-25 to proposed dates of September 1 - October 15. This change will lengthen the hunting season.
 - c. Youth Only, Any Bull from October 1-9 to proposed dates of September 1 - October 15. This change will lengthen the hunting season.
2. Addition of the weapon requirement on Centralia Mine lands to meet the requirements of the landowner's insurance policy and to protect hunter's safety.

WAC 220-415-030 2022 Deer special permits.

The primary purpose of this proposal is to retain deer special permit opportunity in 2023 in accordance with the Department's mandate to provide recreational hunting opportunity and preserve, protect, perpetuate, and manage wildlife populations, RCW 77.04.012. Changes to deer special permit availability (i.e., permit dates, permit levels) are proposed to balance hunting opportunity among user groups with deer population status (i.e., increased hunting opportunities when populations allow, reduced opportunities when declining numbers warrant reduction), and to retain consistency in season timing (e.g., open/close day of week). Notable proposed changes include:

1. Modification of hunt dates for numerous special permit opportunities. These are standard changes intended to align hunts with the calendar to ensure year-to-year consistency (e.g., open/close day of the week). These changes have no anticipated effects.
2. Changing the hunt name "Skagit" Quality deer hunt to "Diablo" for consistency with game management unit terminology and general season rules (WAC 220-410-040). This change has no anticipated effect.
3. A reduction in the Blue Creek, Dayton, and Peola "Antlerless" and Peola "Youth" special permit opportunities. These changes are anticipated to reduce antlerless special permit opportunity in the aforementioned hunt areas.
4. An increase in the number of special permits for the Kitsap "antlerless", Orcas, San Juan, Lopez, and Blakely "2nd Deer", and Couse "Youth" special permit opportunities. These changes are anticipated to increase special permit opportunity in the aforementioned hunt areas.
5. The creation of Blue Creek and Dayton "Youth" special permit opportunities. These changes are anticipated to increase special permit opportunity.
6. A modification of the Tucannon (Youth) special permit opportunity's special restrictions from "White-tailed Deer" to "Any Deer". This change is anticipated to expand the legal deer for this special permit opportunity.
7. Reduction of the Desert "Quality" deer special hunt permit levels for early modern firearm, from 20 to 18, and late archery, from 10 to 9. This hunt area does not have general season opportunity so, to ensure adequate allocation among weapon types, proposed permit levels are determined from preceding license year hunter proportions across weapon types and five-year average harvest success rates by weapon type. Anticipated effects are minor reductions in permit availability for the hunts.
8. A change to reduce the Green River "Hunters with Disabilities" permits from 5 to 2, while creating a Green River "Youth" special permit opportunity with 3 permits. This is a reduction of special permit opportunity under the "Hunters with Disabilities" category, compensated by the creation of "Youth" special permit opportunity. Anticipated effects are a minor reduction in permit availability in the "Hunters with Disabilities" category and a minor increase in permit availability in the "Youth" category.

WAC 220-415-060 2022 Elk special permits.

The primary purpose of this proposal is to retain elk special permit opportunity in 2023 in accordance with the Department's mandate to provide recreational hunting opportunity and preserve, protect, perpetuate, and manage wildlife populations, RCW 77.04.012. Specific changes to elk special permit availability (i.e., permit dates, permit levels) are proposed to balance hunting opportunity among user groups against elk population status (i.e., increased hunting opportunities when populations allow, reduced opportunities when declining numbers warrant reduction), to retain consistency in season timing (e.g., open/close day of week), or to avoid overlap among big game special permits and general seasons (e.g., overlap of seasons with different legal weapon types). Notable proposed changes include:

1. Modification of hunt dates for numerous special permit opportunities. These are standard modifications intended to align hunts with the calendar to ensure year-to-year consistency (e.g., open/close day of the week). These are minor changes to hunt dates and have no anticipated effects on hunting opportunity.
2. A reduction of the early season Mayview-Peola, Blue Creek, and Couse “Antlerless” special permit opportunities. These changes are anticipated to reduce special permit availability of the aforementioned hunts in the antlerless category.
3. Combining Turnbull “Antlerless” and Turnbull “Spike Only” special permit hunts in the “Youth” category. This change expands the special restrictions (i.e., legal animal for harvest) but retains the overall number of permit availability. This is a minor change that is anticipated to expand hunter success but is not anticipated to affect hunting opportunity.
4. Modification of Blue Creek, Tucannon, Wenaha East, Couse, Lick Creek, and Alkali “Quality” and/or “Bull” category special hunt permit levels. These hunt areas do not have general season opportunity so, to ensure adequate allocation among weapon types, proposed permit levels are determined from preceding license year hunter proportions across weapon types and five-year average harvest success rates by weapon type. Anticipated effects are minor reductions in permit availability for the hunts.
5. Modification of Nooksack, Green River, Sauk, “Quality”, “Bull”, “Antlerless”, “Youth”, “65+ Senior”, “Hunters with Disabilities” and the Region 4 North “Master Hunter” special hunt permit levels. Changes to these hunts are determined by co-manager negotiations that occur in mid-winter. Except for proposed changes to the Green River hunt area, changes to these hunts are to be determined. The anticipated effects of changes to the Green River hunt are minor reductions in hunt opportunity. All other anticipated effects of these changes are to be determined.
6. A reduction from 30 to 20 in the Region 6 “Master Hunter” permit level. Anticipated effects are a reduction in special permit opportunity in the master hunter category.

WAC 220-415-070 2022 Moose seasons, permit quotas, and areas.

The primary purpose of this proposal is to retain moose special permit opportunity in 2023 in accordance with the Department’s mandate to provide recreational hunting opportunity and preserve, protect, perpetuate, and manage wildlife populations, RCW 77.04.012. A single change is proposed:

1. Modification of WAC title language to reflect the appropriate license year (i.e., from 2022 to 2023). The anticipated effect of this change is to carry forward moose special permit hunting opportunity into 2023.

WAC 220-415-120 2022 Bighorn sheep seasons, permit quotas, and areas.

The primary purpose of this proposal is to retain bighorn sheep special permit opportunity in 2023 in accordance with the Department’s mandate to provide recreational hunting opportunity and preserve, protect, perpetuate, and manage wildlife populations, RCW 77.04.012. Changes to bighorn sheep special permit availability (i.e., permit dates, permit levels) are proposed to balance hunting opportunity with population status (i.e., increased hunting opportunities when populations allow, reduced opportunities when declining numbers warrant reduction), and to retain consistency in season timing (e.g., open/close day of week). Proposed changes include:

1. A reduction from two to zero permits for the Selah Butte and Umtanum bighorn sheep “Any Ram” special permit opportunities. This change is anticipated to reduce bighorn sheep “Any Ram” permit availability. This proposed change will remove the aforementioned hunts from the WAC table until future conditions permit a hunt opportunity.
2. An increase in the Cleman Mountain “Any Ram” special permit opportunity from 3 to 4 permits. Anticipated effects are an increase in permit opportunity in this category.
3. A reduction from one to zero permits for the Wenaha bighorn sheep “Any Ram” special permit opportunity. This change is anticipated to temporarily reduce the bighorn sheep permit availability. This proposed change will temporarily remove the Wenaha hunt from the WAC table until future conditions permit a hunt opportunity.
4. A modification of hunt dates from Nov. 7-27 to Nov. 6-26 for the Cleman Mountain B bighorn sheep “Adult Ewe” special permit opportunity. This change has no anticipated effect.
5. A modification of hunt boundary description in the WAC table for the Lincoln Cliffs Whitestone Unit bighorn sheep “Adult Ewe” special permit opportunity. This change has no anticipated effect.
6. A deletion of the “Juvenile Ram” category text from the WAC table. This change has no anticipated effect.
7. A modification of hunt dates from Nov. 7-27 to Nov. 6-26 for the Cleman Mountain bighorn sheep “Youth” special permit opportunity. This change has no anticipated effect.
8. Modification to the hunt area descriptions in sections “r” and “s” to be more consistent with other hunt area designations. These changes have no anticipated effects.

WAC 220-415-130 2022 Mountain goat seasons, permit quotas, and areas.

The primary purpose of this proposal is to retain mountain goat special permit opportunity in 2023 in accordance with the Department’s mandate to provide recreational hunting opportunity and preserve, protect, perpetuate, and manage wildlife populations, RCW 77.04.012. Changes to mountain goat special permit availability (i.e., permit dates, permit levels) are proposed to balance hunting opportunity with population status (i.e., increased hunting opportunities when populations allow,

reduced opportunities when declining numbers warrant reduction), and to retain consistency in season timing (e.g., open/close day of week). Proposed changes include:

1. A reduction of the Boulder River North hunt from one permit to no permits in 2023. This proposed change will temporarily remove the Boulder River North hunt from the WAC table until future conditions permit a hunt opportunity. This change is anticipated to reduce mountain goat special permit availability, albeit minimally and offset by increases in other hunt areas. This change is anticipated to reduce mountain goat mortality and encourage population growth.
2. A modification of the Goat Rocks West and Goat Rocks East hunt dates from September 1 – November 30 to proposed dates of October 1 – November 30. This change will shorten the hunting season and may impact hunting success.
3. An increase from one to two permits in 2023 for the Mt Margaret Backcountry and Mt St Helens South hunt opportunities. This change is anticipated to increase mountain goat special permit opportunity in the affected hunt areas. This change is not anticipated to have negative effects on mountain goat population sustainability in the hunt areas.

WAC 220-416-060 2022-2023 Migratory gamebird seasons and regulations.

Migratory game bird seasons and regulations are developed based on cooperative management programs among states of the Pacific Flyway and the U.S. Fish and Wildlife Service, considering population status and other biological parameters. The proposed rule revisions would modify Washington State's migratory game bird seasons and regulations to continue to provide recreational opportunity, control waterfowl damage, and conserve the migratory game bird resources of Washington, consistent with federal frameworks.

The proposed changes, if adopted, will:

1. Adjust season dates relative to 2023-2024 calendar dates.
2. Adjust season dates for white geese in Goose Management Area 4 to three season segments including: select days during Oct. 14-22, 2023, Nov. 10, 2023 – Jan. 28, 2024, and everyday Feb. 17 - Mar. 3, 2024.

Reasons supporting proposal:

WAC 220-412-100 Landowner hunting permits.

This proposal, if adopted, would allow greater flexibility for the landowner and the hunters selected for special permits to schedule their hunt dates with the Centralia Mine staff. The current short seasons make it challenging for schedules to align, and some hunters lose their opportunity to hunt. Under federal mine safety rules, access to the Centralia mine requires extensive safety training unless trained personnel escort the permitted individuals. Mine employees volunteer their time to take the hunters on the mine to hunt, and their availability is limited. Centralia Mine is private land, a closed area, and access privileges are otherwise not open for hunting. This extended season will allow the hunters selected for a special permit on this land to have better chances of a successful hunt. The other permit change requires that hunters use only rifles when hunting on mine lands due to landscape conditions.

WAC 220-415-030 2022 Deer special permits.

This proposal, if adopted, would provide special permit deer hunting opportunities at levels which ensure sustainable harvest and viable populations. Most permit levels are unchanged, but numerous special hunts require date changes to maintain consistent opening or closing hunt dates (#1; e.g., aligning the opening calendar date with a Saturday). Some changes are proposed to improve consistency in naming or title usage (#2), or as part of long-standing agreements with advisory groups (#7) or tribal co-managers (#8) to set permit parameters like hunt category, hunt areas, and permit numbers. Other permit changes are proposed as a function of the population's status. For example, permits are typically reduced when population characteristics indicate a below-objective abundance or a decline in abundance or productivity (#3), whereas permits are typically increased, expanded, or created in association with growing or above-objective populations (#4, #6) or to offset reduced permit opportunity in other categories (e.g., #5 as a result of #3).

WAC 220-415-060 2022 Elk special permits.

This proposal, if adopted, would provide special permit elk hunting opportunities at levels which ensure sustainable harvest and viable populations. Most permit levels are unchanged, but numerous special hunts require date changes to maintain consistent opening or closing hunt dates (#1; e.g., aligning the opening calendar date with a Saturday). Some changes are proposed as a function of the population's status, for example permits are often reduced when population characteristics indicate a below-objective abundance or a decline in abundance or productivity (#2). Other changes are proposed to improve hunter success by expanding special restrictions (#3) or as part of long-standing agreements with advisory groups (#4) or tribal co-managers (#5) to set permit parameters like hunt category, hunt areas, and permit numbers. Under the master hunter category, permit levels are increased or decreased (#6) as a function of increasing or decreasing elk-human conflict (e.g., agricultural depredation).

WAC 220-415-070 2022 Moose seasons, permit quotas, and areas.

This proposal, if adopted, would provide special permit moose hunting opportunities at levels which ensure sustainable harvest and viable populations. There are no proposed changes to permit levels. The single proposed change updates WAC title language to reflect the appropriate license year.

WAC 220-415-120 2022 Bighorn sheep seasons, permit quotas, and areas.

This proposal, if adopted, would provide special permit bighorn sheep hunting opportunities at levels which ensure sustainable harvest and viable populations. Changes are proposed as a function of the population's status, for example permits are reduced or eliminated when population characteristics indicate a below-objective abundance or a decline in abundance or productivity (#1), whereas permits are typically increased, expanded, or created in association with growing or above-objective populations (#2). Changes are proposed in accordance with co-manager or stakeholder negotiation (#3; this permit alternates between Washington and Oregon every other year) to maintain open/close dates or to improve consistency in naming, title, or area descriptions (#4, #7). A minor change is proposed to delete hold-over text in the WAC of now defunct special hunt categories (#5).

WAC 220-415-130 2022 Mountain goat seasons, permit quotas, and areas.

This proposal, if adopted, would provide special permit mountain goat hunting opportunities at levels which ensure sustainable harvest and viable populations. Changes are proposed as a function of the population's status, for example permits are reduced or eliminated when population characteristics indicate a below-objective abundance or a decline in abundance or productivity (#1), whereas permits are typically increased, expanded, or created in association with growing or above-objective populations (#3). The Department is planning an aerial or ground mountain goat capture in the Goat Rocks Wilderness and surrounding area for September 2023. Overlapping hunting and capture operation activities will negatively impact both hunting and capture success. Therefore, the Department is proposing to shorten the hunt dates for the Goat Rocks West and Goat Rocks East special permits (#3).

WAC 220-416-060 2022-2023 Migratory gamebird seasons and regulations.

Migratory gamebird season frameworks are established through ongoing interagency management programs involving U.S. Fish and Wildlife Service (USFWS) and flyway organizations, including input from Canada, Russia, and Mexico. Federal frameworks include maximum bag limits, season lengths, season timing, and other regulations. Pacific Flyway season frameworks follow harvest strategies and management plans that have been developed cooperatively by USFWS and the Pacific Flyway Council. All states adopt waterfowl seasons within federal frameworks, and in many cases, they are more restrictive to address regional conservation needs.

Management agencies utilize Adaptive Harvest Management (AHM) to establish duck season frameworks. AHM relies on annual survey information and population models to prescribe optimal regulation packages each year. The population of ducks in the western part of North America is managed separately from the eastern flyways, as part of the models developed for western mallard AHM. Western mallard AHM uses results from breeding surveys and other information from western areas rather than from the Canadian prairies, recognizing differences in Pacific Flyway breeding areas. This season packages proposed for western mallard AHM are the same as developed under mid-continent mallard AHM (liberal, moderate, and restrictive), although different models are used to prescribe annual packages.

Surveys of the breeding waterfowl were conducted along traditional survey area transects in Alaska and Canada and were used in combination with aerial surveys conducted by crews in British Columbia, Washington, Oregon and California to help inform season dates and bag-limit structure for the 2023-2024 migratory gamebird seasons. Northern pintail status remained below population objective, maintaining a daily bag limit of one pintail per the USFWS Northern Pintail Harvest Strategy. Additionally, based on the most recent scaup status, the optimal regulatory alternative described in AHM protocol, requires a restrictive regulatory alternative, maintaining the daily bag limit to two scaup per day, but maintains the 86-day season length. White geese have continued to expand winter distribution in the Columbia Basin (Goose Management Area 4), with the first arrival of fall migrants now consistently occurring around mid-October across a broader region of Goose Management Area 4, an adjustment of dates within the federal allowance of three season segments will better align resource availability and hunter opportunity in this Goose Management Area.

Since June 2013, prescriptive guidelines inform sea duck harvest strategies with harvest rate targets of less than 5% or less of the winter index as measured by aerial surveys (PSAMP) conducted by WDFW, based on this strategy there are no proposed changes compared to the 2022-2023 season, including that Harlequin Duck will remain closed to harvest. The most recent 3 year-average from the Winter Brant Survey for Skagit County remains below 3,000 brant (3yr-avg. = 2,887) which requires the Skagit County brant hunt start closed until the January 2024 count is available to inform the number of hunt days available.

WAC 220-412-100 Landowner hunting permits. (1) A landowner may enter into a contract with the department and establish boundaries and other requirements for hunter access consistent with commission policy.

(2) It is unlawful to participate in a landowner hunting permit (LHP) hunt without a landowner LHP permit from the landowner **or** a public LHP permit from the department for the species covered under the landowner's contract and possess an unfilled tag for said species. A violation of this section is punishable under RCW 77.15.410.

(3) **Acceptance Guidelines**

(a) LHP contracts must provide one or both of the hunting opportunities listed below for the public via landowner permits and public permits:

- Hunting opportunity that otherwise would not exist.
- Hunting opportunity that helps resolve chronic crop damage problems that have been documented by WDFW.

(b) WDFW may deny LHP applications that do not provide substantial public access benefit beyond the allotted WDFW public permit opportunity.

• For the purposes of this program, "substantial public benefit" will be defined as access for the general public to the property outside of the designated LHP permit season, for any of the following activities: General season or special permit hunting access for deer, elk, bear, cougar, sheep, goat, moose, upland game birds, turkey, waterfowl, dove or other nonhunting activities such as wildlife viewing or fishing. At a minimum, the LHP property should attempt to allow access for at least two types of recreational opportunity outside of the designated LHP permit seasons for deer and elk. Each LHP agreement must demonstrate a substantial public benefit to the citizens of the state and the wildlife resources of the area. For further information regarding public benefit, please refer to the standard operating procedure.

(c) Lands in a single LHP must have a minimum huntable acreage of 1,000 acres.

- Lands that are contiguous can span GMU boundaries.
- Lands that are not contiguous have to reside within the same GMU.

(d) Only 2 LHP contracts will be active at the same time in each WDFW district (Appendix B). If an LHP crosses district boundaries, the LHP will be considered to be in the district containing the majority of the land and/or hunting opportunity.

(e) WDFW will prioritize LHP applications that score the highest using the scoring matrix (Criteria - Appendix D in the standard operating procedure). In addition to LHP hunts, "no-fee" general public access opportunity is strongly encouraged (e.g., general deer, elk, turkey, upland hunting, or other opportunities as stated in (b) of this subsection). Special accommodations for hunters with disabilities, youth, seniors, and designated master hunters are also strongly encouraged, as well as "no-fee" access for special permit holders (e.g., elk, bear, moose and bighorn sheep).

(f) To ensure predictability for landowners, hunters, and WDFW, all landowners who enter into an LHP contract in April are required to abide by the conditions of the LHP contract for the term of the con-

tract. Any changes in property ownership, total acreage or management practices on the land(s) enrolled in the LHP will require an amendment to the contract. WDFW reserves the right to alter conditions to the contract if an amendment is required. It is the responsibility of the landowner to inform the proper WDFW regional staff of any changes. Not providing accurate information may result in the termination of the contract.

(g) Landowners may only be involved in one LHP statewide.

(4) **Program Guidelines**

(a) Policy C-6002 divides hunting on LHP cooperator lands into public and landowner permit opportunities. Public opportunity is defined as permits that are drawn through the WDFW permit drawing system or are drawn through a public raffle. Landowner opportunity is defined as those permits allocated to and distributed by the LHP cooperator(s).

(b) No LHP permits for elk will be issued in those GMUs where branch-antlered bull elk hunting is by quality or bull elk special permits only.

(c) No LHP permits for deer will be issued in those GMUs where antlered deer hunting is by quality or buck deer special permits only.

(d) Landowners may sell access associated with the landowner portion of the permits, but then must waive the right to all claims for wildlife damage that may occur on their lands. Selling access may also affect landowner liability as described in RCW 4.24.200 and 4.24.210. It is the responsibility of the landowner to ensure they are protected against liability claims.

(e) WDFW will draw permits for public hunting opportunity through the licensing permit drawing system or through a public raffle. Public raffles must be conducted according to state laws and regulations including, but not limited to, WAC 220-412-050 and as outlined in the commission policy C-6002.

(f) Access to LHP property and associated hunting will be free of charge for individuals who draw a public LHP permit. Hunting opportunity (i.e., location, length of time, season of the hunt and hunting area) must be equivalent for public permit holders and landowner permit holders. Landowners not meeting this requirement will have their LHP contract voided. Landowners in an LHP may be required to provide evidence verifying equitability between both the public and landowner permits.

(g) Lands in an LHP contract will be identified on the WDFW website, along with other private and public hunting lands. The cooperator or WDFW may create additional detailed maps to better inform the public. Any additional maps or materials may also be posted on the WDFW website.

(h) LHP boundaries will be posted with WDFW approved signs in accordance with boundary posting requirements section of the standard operating procedure.

(i) LHP properties may not have fences that alter or prevent the natural movement of wildlife.

(j) All LHP permits are only valid within the identified LHP property boundaries. Any wildlife harvested outside the boundaries of the LHP using an LHP permit will be considered a "closed season" violation. LHP permits are not valid on private or public in-holdings that are not included in the LHP contract.

(k) Any cost to implement the program, other than costs typically covered by WDFW (e.g., WDFW staff time and LHP signage), will be the responsibility of the landowner.

(l) Damage prevention permits authorized under WAC 220-440-060 will be issued to LHP cooperators only if WDFW deems it necessary to control damage.

(m) All LHP contracts will be tied to the three-year season setting cycle.

(n) LHP permits will be allocated annually. WDFW regional staff will provide permit recommendations to the private lands section manager by November of each year.

(o) A cooperator who does not comply with their LHP contract may have their contract voided by the department. If their contract is voided, they will not be able to reapply until the next application cycle and forfeit any remaining permits to WDFW. If a contract is voided, the LHP property may be enrolled in another WDFW access program without having to wait until the next LHP application cycle.

(p) WDFW at its discretion may deny any LHP application for biological or social reasons.

(q) LHPs shall not be authorized in areas where other access opportunities may be jeopardized.

(r) Due to the limited availability of habitat funding, LHP properties will not be prioritized for any funding available to the private lands access program for the purposes of habitat enhancement, restoration or other habitat related activities. This does not include federal programs, where WDFW staff provide technical assistance.

Annual reports (Appendix C) will be required for all LHP properties. The annual report form will be mailed to the landowners with their LHP permits each year. Reports are due back to the private lands section manager no later than May 1st of the following year. Failing to mail/send completed annual reports may result in a delay in issuing permits the following hunting season. Chronic failure to submit reports will lead to voiding of the LHP contract.

(5) (a) **Buckrun**

(i) Buckrun is located in Grant County, near the town of Wilson Creek.

(ii) Hunting on Buckrun is managed for a quality experience by scheduling hunt dates and keeping the number of hunters in the field low. Hunters with limited flexibility for hunt dates may experience scheduling problems. Hunters can generally expect one-day hunts during the permit seasons with written authorization from the Buckrun manager. All hunters must check in and out with the landowner or their designee on hunt day. Hunts are scheduled on a first-come basis by calling 509-345-2577 in advance.

(b) **Buckrun landowner hunting permits**

(i) Buckrun's manager will distribute Buckrun's landowner hunting permits. Buckrun may charge an access fee for these permits, but not for winning raffle permits. Only hunters possessing a modern firearm deer tag are eligible for permits on Buckrun's properties. Contact the manager at 509-345-2577 for additional information.

(ii) **Deer Seasons for the landowner portion of LHP permits:**

(8) (a) **Columbia Plateau Wildlife Management Association**

(i) The Columbia Plateau Wildlife Management Association (CPWMA) landowner hunting permit area is located in Spokane County (GMU 130) near Turnbull National Wildlife Refuge.

(ii) Landowner permit hunts are primarily small ranch hunts but are managed for a quality experience by keeping the number of hunters in the field low.

(b) **Columbia Plateau Wildlife Management Association landowner hunting permits**

(i) CPWMA's manager will distribute the association's landowner hunting permits. CPWMA will not charge an access fee for raffle permit winners. Only hunters possessing an elk tag are eligible for permits on CPWMA's properties. All successfully drawn permit applicants must have written authorization from CPWMA's manager and must check in and out with CPWMA's designee at the beginning and ending of the scheduled hunting dates. Successful applicants will receive a packet of information with forms to complete and a map showing the hunt area. These applicants must complete the forms and return them before September 30. Applicants should see CPWMA's website at www.cpwma.org or contact the hunt manager at 509-263-4616. Holders of landowner permits selected through raffle, including 9 antlerless elk and 2 any elk permits, are eligible to purchase second elk tags that may only be used on lands included in the CPWMA LHP.

(ii) **Elk Seasons for the landowner portion of the LHP permits:**

Hunt Name	Quota	Access Season	Special Restrictions	Boundary Description

(9) (a) **Centralia Mine**

(i) Centralia Mine landowner hunting permit area is located in Lewis and Thurston counties (GMU 667) on the Centralia Mine near Centralia.

(ii) The Centralia Mine is owned by TransAlta and is a federally mandated, closed access area. Hunters must be escorted by TranAlta employees to access the property. Public hunters that are drawn for permits are escorted to huntable areas on the mine by employees with TransAlta that volunteer their time.

(b) **Centralia Mine landowner hunting permits**

(i) TransAlta staff will distribute the Centralia Mine landowner hunting permits including to TransAlta staff that volunteer as guides for state disabled, senior and youth permit elk hunts. TransAlta volunteers using their permits will attempt to target limping cows to assist with Treponeme Associated Hoof Disease control.

(ii) **Elk Seasons for the landowner portion of the LHP permits:**

Hunt Name	Quota	Access Season	Special Restrictions	Boundary Description
Centralia Mine	5	Sept. 1 - Dec. 31	Antlerless	Centralia Mine

(c) **Centralia Mine public hunting permits**

(i) Hunters must apply to the department for Centralia Mine special hunting permits. To apply, hunters must have the required license/transport tag who are 65 years and older at some point during the license year for the senior hunts or be registered with the department as a hunter with a disability for the disabled hunts or meet the qualifications for youth hunting for the youth hunt. Due to landscape conditions, all hunters, regardless of tag type, are required to use a rifle during these hunts. Successful applicants will be contacted by TransAlta to arrange their hunt date and will receive a packet of logistical information from TransAlta about the hunt.

(ii) **Elk Seasons for the public portion of the LHP permits:**

*Individuals selected for these hunts will be granted a single weekend within the listed time frame. Coordination with the hunt manager is required when selecting specific weekend dates.

AMENDATORY SECTION (Amending WSR 22-15-096, filed 7/19/22, effective 8/19/22)

WAC 220-415-030 ((2022)) 2023 Deer special permits. It is unlawful to fail to comply with the bag, possession, and season limits described below. A violation of this section is punishable under RCW 77.15.410 Unlawful hunting of big game—Penalty.

Deer Special Permit Hunting Seasons (Open to Permit Holders Only)

Hunters must purchase a deer hunting license prior to purchasing a permit application. Hunters may only apply for permits consistent with the tag required for the hunt choice; however, Multiple Season Permit holders may apply for archery, muzzleloader, or modern firearm permit hunts. Hunters drawn for a special permit hunt must comply with weapon restrictions, dates, and other conditions listed for the hunt. Hunters drawn for a special permit designated "**Any tag**" under the "**Weapon/Tag**" restriction must use equipment consistent with the requirements of their transport tag and license.

Bag Limit: One (1) deer per hunter during the license year except where otherwise permitted by department rule, even if permits are drawn for more than one deer hunt category.

^{HC} This is a damage hunt administered by a WDFW designated hunt coordinator. Successful applicants will be contacted on an as-needed basis to help with specific sites of elk damage on designated landowner's property. Not all successful applicants will be contacted in any given year, depending on elk damage activity for that year.

Hunter Education Instructor Incentive Permits				
<ul style="list-style-type: none"> - Special deer permits will be allocated through a random drawing to those hunter education instructors who qualify. - Permit hunters must use archery equipment during archery seasons, muzzleloader equipment or archery equipment during muzzleloader seasons, and any legal weapon during modern firearm seasons. Hunter orange and/or hunter pink is required during modern firearm seasons. - Except for online class incentive permits and chief instructor incentive permits, qualifying hunter education instructors must be certified and have been in active status for a minimum of three consecutive years, inclusive of the year prior to the permit drawing. - Permittees may purchase a second license for use with the permit hunt only. <p>Qualified hunter education instructors may only receive one incentive permit each year.</p>

AMENDATORY SECTION (Amending WSR 22-15-096, filed 7/19/22, effective 8/19/22)

WAC 220-415-060 ((2022)) 2023 Elk special permits. It is unlawful to fail to comply with the bag, possession, and season limits described below. A violation of this section is punishable under RCW 77.15.410 Unlawful hunting of big game—Penalty.

Special Elk Permit Hunting Seasons (Open to Permit Holders Only)

Hunters must purchase an elk hunting license prior to purchasing a permit application. Hunters may only apply for permits consistent with the tag required for the hunt choice; however, Multiple Season Permit holders may apply for Eastern or Western Washington archery, muzzle-loader, or modern firearm permit hunts. Applicants must have purchased the proper tag for these hunts. The elk tag prefixes required to apply for each hunt are shown in the following table. Hunters drawn for a special permit hunt must comply with weapon restrictions, dates, and other conditions listed for the hunt. Hunters drawn for a special permit designated "**Any tag**" under the "**Weapon/Tag**" restriction must use equipment consistent with the requirements of their transport tag and license.

Bag Limit: One (1) elk per hunter during the license year except where otherwise permitted by department rule, even if permits are drawn for more than one elk hunt category. Any combination of seasons, tags, and permits set by the department will not exceed a maximum of two (2) elk per hunter during the license year.

See subsection (3) of this section Bighorn Sheep Units for detailed legal descriptions of these hunt area boundaries.

^a A juvenile ram is defined as a male bighorn sheep having at least one "unbroomed" horn that does not extend past an imaginary line beginning at the point on the animal's forehead where the front of the horn base adjoins the skull, and continuing downwards and in a posterior direction through the posterior edge of the eye. All reference points are based on viewing the ram directly from a 90 degree angle from which the head is facing. A "broomed" horn is defined as a sheep horn that has been broken, splintered, frayed or rubbed in the wild, thus shortening its length and disrupting its natural taper.

A dusky Canada goose is defined as a dark-breasted (as shown in the Munsell color chart 10 YR, 5 or less) Canada goose with a culmen (bill) length of 40-50 mm.

Hunters must possess a valid special (~~(2022-2023)~~) 2023-2024 migratory bird hunting authorization and harvest record card for geese when hunting all goose species in Goose Management Area 2 Coast and Inland. New hunters and those who did not maintain a valid (~~(2021-2022)~~) 2022-2023 authorization must review goose identification training materials and score a minimum of 80% on a goose identification test to receive authorization. Hunters who fail a test must wait 28 days before retesting, and will not be issued a reciprocal authorization until that time. Immediately after taking a goose into possession, hunters must record in ink the information required within the designated spaces provided on the harvest record card.

It is unlawful for hunters in Goose Management Area 2 Coast and Inland to fail to comply with the directions of authorized department personnel related to the collection of goose subspecies information pursuant to RCW 77.12.071. A person who prevents department personnel from collecting samples of tissue or other bodily parts is subject to prosecution under RCW 77.15.360 Unlawful interfering in department operations—Penalty. If a hunter takes a dusky Canada goose or does not comply with requirements listed above regarding WDFW collection of subspecies information, authorization will be invalidated by the department and the hunter will not be able to hunt geese in Goose Management Area 2 Coast and Inland for the remainder of the season. It is unlawful to fail to comply with all provisions listed above for Goose Management Area 2 Coast and Inland. Taking one dusky Canada goose is punishable as an infraction under RCW 77.15.160 (5)(b). Other violations of Area 2 goose hunting rules are punishable as an infraction under RCW 77.15.160 (2)(e) or as a misdemeanor or gross misdemeanor under RCW 77.15.400 unlawful hunting of wild birds, depending on the circumstances of the violation.
