WSR 23-06-065

Agency: Washington Department of Fish and Wildlife (P2022-16) Order # 23-34

Effective date of rule:

Permanent Rules

- 31 days after filing.
- Other (specify) _____ (If less than 31 days after filing, a specific finding under RCW 34.05.380(3) is required and should be stated below)

Any other findings required by other provisions of law as precondition to adoption or effectiveness of rule?

- Yes No If Yes, explain:

Purpose: Recreational clam and oyster seasons are adjusted based on recent clam and oyster population survey data, recreational harvest projections, and negotiations affecting intertidal Treaty and non-Treaty fisheries, along with public health considerations. Seasons will be opened or extended on some public beaches and closed or shortened on others. These amendments reflect openings and closures based on current data. One new area will be designated as an Oyster Drill Restricted Area based on the recent discovery of the presence of harmful invasive oyster drills at this location. This designation is necessary to reduce risk of spread of oyster drills. Additionally, the department is proposing to update its European Green Crab Restricted Areas designation to reflect the current known status of this invasive species. This update will add the Washington Coast, Columbia River estuary, Strait of Juan de Fuca, San Juan Islands/North Puget Sound, and Hood Canal to the European Green Crab Restricted Area designation. These designations are necessary to reduce the risk of spread of European green crab.
