EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: The 2023 Columbia River forecasted return of upriver spring Chinook salmon is sufficiently abundant to allow for harvest opportunity on the Snake River based on WDFW Commission Policy C-3620. The U.S. v. Oregon (2018-2027) Management Agreement provides Endangered Species Act coverage for this fishery.

WDFW will monitor spring Chinook returns throughout the season and may close the fishery at any time due to harvest levels, ESA impacts, in-season run adjustments, or a combination of thereof.

There is insufficient time to adopt permanent rules.
