**Statutory authority for adoption:** RCW 77.04.012, 77.04.020, 77.12.045 and 77.12.047

**Other authority:**

**EMERGENCY RULE**

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

**Reasons for this finding:** The purpose of this rule is to modify ocean recreational salmon seasons in Marine Areas 3 and 4 to allow daily retention of up to two Chinook salmon. Based on catch to date and projected catch later in the season, sufficient quota remains to allow daily retention of two Chinook per angler without requiring early closure of the fishery in these areas.

This rule maintains previously established recreational seasons in Areas 1 and 2.

These rules for in-state waters are consistent with federal salmon fishing regulations adopted by the National Marine Fisheries Service in response to actions taken by the Pacific Fishery Management Council (PFMC) to set salmon fishery harvest specifications and management measures; this action is intended to achieve regulatory consistency in federal and state waters for the ocean recreational salmon fishery, which operates in both areas.

There is insufficient time for WDFW to adopt consistent regulations through the permanent rulemaking process.
