**Purpose of the proposal and its anticipated effects, including any changes in existing rules:** This rule amendment proposal, if adopted, reclassifies the western gray squirrel from threatened to endangered.

Anticipated effects include communicating a higher level of conservation concern for the species, their conservation needs, and recovery actions with partners and the public. Additionally, there is also an increased penalty for unlawful taking under RCW 77.15.120.

Finally, the western gray squirrel already has a recovery plan required by WAC 220-610-110.

If the status change is adopted, western gray squirrel will be removed from the list of threatened species in WAC 220-200-100 "Wildlife classified as protected shall not be hunted or fished" and added to the list of endangered species under WAC 220-610-010.

**Reasons supporting proposal:** Important known threats to the western gray squirrel populations in Washington are:

- Habitat loss.
- Habitat degradation and fragmentation.
- Small population size and isolation.

- Disease and highway mortality.

Western Gray Squirrel habitat loss is linked to timber extraction, wildfire, and land conversion. Climate change is both a current and potential future threat to habitat. Examples include stand-replacement fire, changes in resulting stand composition, and effects on food supply such as production of fungi and seeds.

The southern Puget Trough population has increased since 2007's recovery plan. However, it is still very limited in size and constrained by the area and fragmentation of its habitat. In addition, the final Periodic Status Review describes continued habitat loss of >20% in the other two isolated core population areas on the east slope of the cascades due to timber extraction and wildfire. A primary threat identified in the original listing of the species was habitat loss, which has only increased since listing.

Because of the species' small total population size and the isolation of the three populations; continuing threats of wildfires and timber harvest; and a likely decline in habitat of >20% in both the North Cascades and Klickitat regions, it is recommended that the Western Gray Squirrel be uplisted to endangered in Washington.

**Statutory authority for adoption:** RCW 77.04.012, 77.04.013, 77.04.055, 77.12.020, and 77.12.047.

**Statute being implemented:** RCW 77.04.012, 77.04.013, 77.04.055, 77.12.020, and 77.12.047.

This rule proposal, or portions of the proposal, is exempt under RCW \_\_\_\_\_.

Explanation of how the above exemption(s) applies to the proposed rule:

**(2) Scope of exemptions:** *Check one.*

The rule proposal is fully exempt (*skip section 3*). Exemptions identified above apply to all portions of the rule proposal.

The rule proposal is partially exempt (*complete section 3*). The exemptions identified above apply to portions of the rule proposal, but less than the entire rule proposal. Provide details here (consider using [this template from ORIA](#)):

The rule proposal is not exempt (*complete section 3*). No exemptions were identified above.

**(3) Small business economic impact statement:** *Complete this section if any portion is not exempt.*

If any portion of the proposed rule is **not exempt**, does it impose more-than-minor costs (as defined by RCW 19.85.020(2)) on businesses?

No Briefly summarize the agency's minor cost analysis and how the agency determined the proposed rule did not impose more-than-minor costs. \_\_\_\_\_

Yes Calculations show the rule proposal likely imposes more-than-minor cost to businesses and a small business economic impact statement is required. Insert the required small business economic impact statement here:
