**Other authority:**

**EMERGENCY RULE**

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

**Reasons for this finding:** This emergency rule is needed to schedule openings for commercial purse seine and gillnet fisheries in Puget Sound Management and Catch Reporting areas 7 and 7A and commercial reefnet fisheries in Area 7. Prosecuting these fisheries has been authorized by The Fraser River Panel as part of the Pacific Salmon Treaty. In-season information indicates that there are harvestable pink salmon available for US fisheries. There is insufficient time to adopt permanent rules.
