EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: This rule is necessary to close gillnet openings in Puget Sound Salmon Management and Catch Reporting areas 10 and 11 which were scheduled as a result of the 2023 North of Falcon seasons setting process. The latest in-season runsize estimate for South Sound chum salmon based on test fishing is insufficient to support additional openings until additional test fishing data are collected and runsize is reassessed. Future openings will be based on weekly test fisheries and are likely to be limited in participation. These openings will be enacted by emergency rule and will be announced weekly. There is insufficient time to adopt permanent rules.
