EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: Total catch in the troll fishery is approaching its quota for the May-June portion of the fishery. Closure of the fishery is necessary to determine total catch for the season and to assess whether an additional opening is possible without exceeding the remaining quota. This closure is adopted at the recommendation of the Pacific Fisheries Management Council, in accordance with preseason fishing plans, and has been adopted for federal waters by the National Oceanic and Atmospheric Administration.
