EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: The purpose of this rule is to reopen recreational salmon fishing in Area 1. The fishery was closed on August 12 due to coho catch approaching the quota for the area, but sufficient quota remains to allow reopening the area for several days. These rules are adopted at the recommendation of the Pacific Fisheries Management Council, in accordance with preseason fishing plans, and have been adopted for Federal waters by the National Oceanic and Atmospheric Administration. There is insufficient time to adopt permanent rules.
