## CR-105 (December 2017) (Implements RCW 34.05.353)

CODE REVISER USE ONLY

OFFICE OF THE CODE REVISER  
STATE OF WASHINGTON  
FILED

DATE: May 21, 2025

TIME: 10:14 AM

WSR 25-11-088

**Agency:** Washington State Department of Fish and Wildlife (WDFW) P2025-10

**Title of rule and other identifying information:** (describe subject) Improving Accessibility, Updating Taxonomy, and Correcting Typographical and Spelling Errors in Invasive/Nonnative Species, Food Fish Listings including the following rules:

WAC 220-640-030 Prohibited level 1 species  
WAC 220-640-050 Prohibited level 3 species  
WAC 220-640-060 Regulated Type A species  
WAC 220-300-370 Food Fish – Classification  
WAC 220-300-380 Game Fish – Classification  
WAC 220-320-010 Shellfish – Classification

**Purpose of the proposal and its anticipated effects, including any changes in existing rules:** The department is amending sections of WAC chapters 220-640, 220-300, and 220-320 by correcting typographic errors and taxonomic errors. The department is also reordering and alphabetizing listed species within WACs 220-640-030, 220-640-050, and 220-640-060 to increase accessibility, understanding, and legal compliance. No additional changes or additions are proposed. These corrections relate back to the initial adoption date of the WAC chapter in 2017 (WAC 220-300-380), 2019 (WACs 220-640-030, 220-640-050, and 220-640-060), and 2022 (WACs 220-300-370 and 220-320-015.)

**Reasons supporting proposal:** In the of Fall 2024, WDFW was alerted to a taxonomic reference error and misspelling of mitten crab, in WAC 220-640-030. The department initiated rule making by subsequently filing WSR-24-23-055 on November 14, 2024, amending and correcting the reference. While preparing initial information for expedited rulemaking, WDFW identified several other taxonomic and spelling reference errors in WAC 220. This rulemaking will correct the identified reference errors, in addition to reorganizing the structure for improved accessibility, understanding, and legal compliance.

**Statutory authority for adoption:** RCWs 77.04.012, 77.04.020, 77.04.055, 77.12.045, 77.04.013 and 77.12.047

**Statute being implemented:** RCWs 77.04.012, 77.04.020, 77.04.055, 77.12.045, 77.04.013 and 77.12.047

**Is rule necessary because of a:**

Enforcement:	Chief Steve Bear	1111 Washington St. SE Olympia, WA 98501	360-902-2936

**Agency comments or recommendations, if any, as to statutory language, implementation, enforcement, and fiscal matters:** Recommendation to review listings each biennium, initiating rulemaking for taxonomic reference errors or updates as needed.

**Expedited Adoption - Which of the following criteria was used by the agency to file this notice:**

- ☐ Relates only to internal governmental operations that are not subject to violation by a person;
- ☐ Adopts or incorporates by reference without material change federal statutes or regulations, Washington state statutes, rules of other Washington state agencies, shoreline master programs other than those programs governing shorelines of statewide significance, or, as referenced by Washington state law, national consensus codes that generally establish industry standards, if the material adopted or incorporated regulates the same subject matter and conduct as the adopting or incorporating rule;
- ☒ Corrects typographical errors, make address or name changes, or clarify language of a rule without changing its effect;
- ☐ Content is explicitly and specifically dictated by statute;
- ☐ Have been the subject of negotiated rule making, pilot rule making, or some other process that involved substantial participation by interested parties before the development of the proposed rule; or
- ☐ Is being amended after a review under RCW 34.05.328.

**Expedited Repeal - Which of the following criteria was used by the agency to file notice:**

- ☐ The statute on which the rule is based has been repealed and has not been replaced by another statute providing statutory authority for the rule;
- ☐ The statute on which the rule is based has been declared unconstitutional by a court with jurisdiction, there is a final judgment, and no statute has been enacted to replace the unconstitutional statute;
- ☐ The rule is no longer necessary because of changed circumstances; or
- ☐ Other rules of the agency or of another agency govern the same activity as the rule, making the rule redundant.

**Explanation of the reason the agency believes the expedited rule-making process is appropriate pursuant to RCW 34.05.353(4):** Expedited rulemaking is appropriate because the amendments being made to WACs 220-640-030, 220-640-050, 220-640-060, 220-300-370, 220-300-380, and 220-320-015 are correcting typographical errors in species names, addressing taxonomic name changes, and to clarifying language. The rule making also seeks to organize sections alphabetically to improve accessibility, understanding, and legal compliance.

**NOTICE**

**THIS RULE IS BEING PROPOSED UNDER AN EXPEDITED RULE-MAKING PROCESS THAT WILL ELIMINATE THE NEED FOR THE AGENCY TO HOLD PUBLIC HEARINGS, PREPARE A SMALL BUSINESS ECONOMIC IMPACT STATEMENT, OR PROVIDE RESPONSES TO THE CRITERIA FOR A SIGNIFICANT LEGISLATIVE RULE. IF YOU OBJECT TO THIS USE OF THE EXPEDITED RULE-MAKING PROCESS, YOU MUST EXPRESS YOUR OBJECTIONS IN WRITING AND THEY MUST BE SENT TO**
