EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- ☒ That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
☐ That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: Commercial harvest in Region 2-West will be extended through February 4, 2025, due to harvest rates being slower than projected. Region 1 will close to commercial harvest on February 15, 2025, following co-manager agreement to adjust the total allocation due to equal sharing and conservation concerns. There is sufficient allocation remaining to allow continued harvest in Puget Sound commercial crab fishery in Regions 1, 3-2, and 3-3, until further notice. These provisions are in conformity with agreed management plans with applicable tribes. Co-management plans are entered into as required by court order. The Puget Sound commercial season is structured to meet harvest allocation objectives negotiated with applicable Treaty tribes and outlined in the management plans. Further adjustments of the season structure may be made pending updated harvest data. There is insufficient time to adopt permanent rules.

Note: If any category is left blank, it will be calculated as zero.
