EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- ☒ That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
☐ That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: This rule extends the limited Columbia River commercial fishery for eulachon smelt. The fishery helps to monitor run strength and timing and to collect biological data. The general public welfare is protected with the immediate and limited duration opening of the commercial smelt fishing in the mainstem Columbia River. This limited harvest opportunity allows for maintenance and monitoring of a sustainable fish population. There is insufficient time to adopt permanent regulations.
