Area 7 and 7A sockeye fisheries are controlled by the Fraser River Panel and are not posted on this hotline. Fishers should call the **National Marine Fisheries Service Hotline at 1-800-662-9825** to get opening information on Fraser Panel fisheries. Fishers are reminded that a department issued **Fish Friendly certification card is required** to participate in any Area 7 or 7A commercial salmon fisheries.

For the week beginning Sunday September 3rd all areas are closed except as follows:

Areas 7B (Bellingham Bay) and 7C (Samish Bay) will be open to:

Gillnets using 5-inch minimum mesh size:

Area 10 Limited Participation Pink Fishery:

In early July, all Puget Sound Commercial permit holders were mailed a limited participation entry form with information on how to apply to these fisheries. The department has contacted the selected vessels for the fishery. In cases where the selected vessel has chosen not to participate, we have contacted alternates. Department observers are required on board all vessels at all times while engaged in fishery. The fishery will close when 400 Chinook mortalities are reached.

Pink seasonal closure: Area 10 is closed east of a line from West Point extending west to the closest mid-channel buoy then true through Pt. Wells until reaching latitude 47°44'50.0" N, then directly east to the shoreline. Area 10 is also closed to purse seines within 500' of the eastern shore north of 47°44'50.0" N.

Purse seines:

Limited to boats selected for the limited participation fishery only.

7 AM to 7 PM. Tuesday, September 5th.
