

Statewide Freshwater Rules

Using Freshwater Rules

1 • • • • • Read:

The Statewide Freshwater Rules and Statewide Freshwater Species Rules. Determine seasons and general rules applying to the species for which you intend to fish. Remember to check for emergency rules, which can be found by calling the WDFW Fishing Hotline at (360) 902-2500, by contacting statewide customer service at (360) 902-2700, or by visiting the WDFW website at <http://wdfw.wa.gov>.

2 • • • • • Choose:

The location you are going to fish and check that area for Special Rule listings. Special Rules are divided into multiple areas: Coastal Rivers, Puget Sound and Strait Rivers, Columbia Basin Rivers, Westside and Eastside lakes. **RIVERS** lists rivers, streams, and beaver ponds. **LAKES** lists lakes, ponds, and reservoirs. For the purposes of this pamphlet, the COLUMBIA AND SNAKE RIVERS are rivers (not reservoirs), and any special rules that apply are listed in the Columbia Basin section. See maps below for additional information.

3 • • • • • If your area is listed in a Special Rules section:

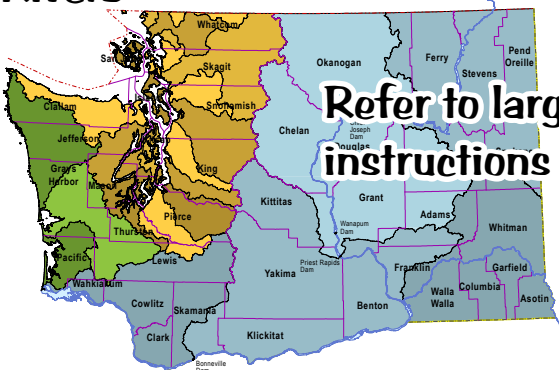

Read Special Rules Instructions on the bottom of page 16. If your area is NOT listed in the Special Rules for Westside and Eastside lakes (**pages 77-98**), then all the Statewide Rules apply. In the river sections (Puget Sound and Strait, Coastal, and Columbia Basin rivers), **ALL** unlisted areas are **CLOSED**.

4 • • • • • The following terms are used frequently in the Special Rules:

Catch-and-release, Chumming, Daily Limit, Fly Fishing Only, Juvenile Only, Landlocked Salmon Rules, Minimum Size (min. size), Maximum Size (max. size), Night Closure, Anti-Snagging Rule, Selective Gear Rules, Internal Combustion Motors Prohibited, Release wild STEELHEAD, Release wild CHINOOK, Release wild COHO, and Release wild CUTTHROAT. Definitions can be found on pages 10-11.

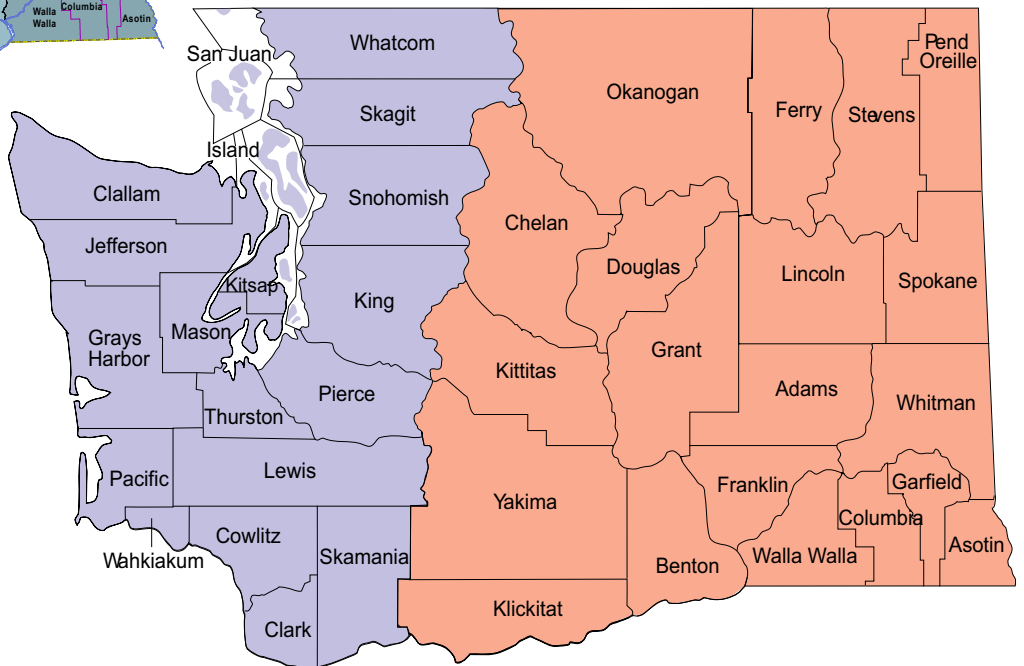

Freshwater Rules

Rivers

Refer to large river map and instructions on page 19

Eastside Lakes Pages 88-98

Westside Lakes Pages 77-87

Statewide Freshwater Rules

★ **The following rules and seasons apply unless listed otherwise in the Special Rules Pages 19-98**

Areas/Seasons

For all Game Fish and SALMON, the Special Rules show **ALL** of the fishing opportunities for each freshwater area listed.

All freshwater areas are CLOSED to the harvest of any fish not classified as a Food Fish or Game Fish (see definitions page 10) except for NORTHERN PIKE.

Freshwater areas are open 24 hours per day when open.

All FRESHWATER areas are **CLOSED** to fishing for SALMON, DOLLY VARDEN/BULL TROUT, LAMPREY, and GRASS CARP.

Fishing for COMMON CARP, SHAD, or FORAGE FISH is open only during open Game Fish or SALMON seasons.

LAKES, PONDS, and RESERVOIRS are open to fishing for Game Fish (except DOLLY VARDEN/BULL TROUT and GRASS CARP) **year-round**.

RIVERS, STREAMS, and BEAVER PONDS are **CLOSED** to fishing unless listed as open. See page 19 for complete information. Beaver ponds located within or connected to streams listed as open to TROUT and Other Game Fish follow the same rules as the stream.

Tackle

Hook and line angling only. Barbed or barbless hooks may be used, and a hook may be single-point, double, or treble, but not more than one line with up to three hooks per angler may be used.

Single-point barbless hooks are required in areas designated as "fly fishing only" or "selective gear rules."

All fishing gear must be kept in immediate control and may not be left unattended while fishing. Rodholders may be used, but the rod must be easily removed without delay; rod may be left in holder while playing the fish.

A club or dipnet may be used to assist landing a legal fish taken by legal gear. A gaff hook may not be used.

It is unlawful to possess a fish taken from freshwater that was not hooked inside the mouth or on the head. The head is defined as any portion forward of the rear margin of the gill plate.

Bait Rules

It is unlawful to chum, broadcast, feed, or distribute into freshwater any bait or other substance capable of attracting fish unless specifically authorized in Special Rules.

Where use of bait is prohibited, or where lures or flies are used voluntarily, Game Fish may be caught and released until the daily limit is retained. If any fish has swallowed the hook or is hooked in the gill, eye, or tongue, it should be kept if legal to do so.

It is unlawful to possess or use live aquatic animals as bait, except:

1. Live aquatic animals (other than fish) collected from the water being fished.
2. Live sand shrimp.
3. Live forage fish in the Columbia River downstream of the Rocky Point/Tongue Point line.

Sturgeon

GREEN STURGEON may not be retained.

Catch-and-release fishing ONLY in the Columbia River from Bonneville Dam downstream, and from Priest Rapids Dam to Chief Joseph Dam, Snake River from Ice Harbor Dam upstream, coastal, and Puget Sound waters including their tributaries.

Annual WHITE STURGEON limit is 2 fish even if the angler holds both a Washington and Oregon license.

Catch Record Cards are required statewide.

WHITE STURGEON Open only during open Game Fish or SALMON seasons.

Only one single-point barbless hook and bait is allowed when fishing for STURGEON.

In the field, eggs must be retained with intact carcass of fish from which they came.

Night closure in effect for all STURGEON (except Chehalis River). Any STURGEON not to be retained must be released immediately. Oversized STURGEON cannot be removed totally or in part from the water.

In Columbia River waters forming the boundary between Washington and Oregon, STURGEON anglers may continue to fish (catch-and-release) after a daily or yearly limit has been retained.

STURGEON caught from lakes, rivers, or streams **without** catch record card codes should be entered on the catch card with code "900".

Tagged STURGEON: Do not remove tags from fish not of legal size or not to be retained, but record: tag number and color, date, location of catch, fish length, your name and address. If fish is retained, remove tag and send with above information to the address below.

WDFW Region 5 Office (Vancouver)
2108 Grand Boulevard
Vancouver, Washington 98661

Special Rules Instructions

The Special Rules (pages 19-98) list freshwater areas where the Statewide Rules have been modified.

Unless otherwise listed in the Special Rules, you must follow the Statewide Rules.

For all Game Fish and salmon, the Special Rules show **ALL** of the fishing opportunities for each freshwater area listed.

The terms "TROUT", "All Game Fish", and "Other Game Fish" include the TROUT and Game Fish species on the definitions pages 10-11, except DOLLY VARDEN/BULL TROUT and GRASS CARP.

When Landlocked Salmon rules apply, landlocked ATLANTIC, COHO, and CHINOOK SALMON are regulated as trout. See definition page 11.

County references after lakes or streams are noted to make it easier to locate the waters listed, or to differentiate between two places with the same name. They do not mean that the rules apply only to the portion of water in that county.

In the Special Rules "motors prohibited" mean that fishing from a floating device equipped with a motor is prohibited. "Internal combustion motors prohibited" means that fishing from a floating device equipped with an internal combustion motor is prohibited. "Equipped with" means the motor is attached to the floating device, regardless of whether the motor is in the water.

In Grant, Adams, Okanogan, and Douglas counties, you may fish up to the base of all man-made dams or other obstructions (in listed and unlisted areas), except Zosel Dam.

Lakes with this icon have a public boat ramp.

Lakes with this icon are excluded from the Two-Pole Endorsement.

Waters annotated with: **Col. R. Salmon/Steelhead Endorsement**, require a Columbia River Salmon and Steelhead Endorsement when fishing for salmon or steelhead. See: http://wdfw.wa.gov/licensing/crss_endorsement

Waters annotated with: **Barbless hooks required for Salmon/Steelhead**, require the use of barbless hooks when fishing for SALMON and STEELHEAD within the Columbia River and its tributaries.

Waters annotated with: **Mandatory Hatchery Steelhead Retention**, the catch-and-release of hatchery steelhead is not allowed. These fish must be retained if legal to do so.

Statewide Freshwater Species Rules

Game Fish Possession Limit for Game Fish is 2 Daily Limits in any form.

Game Fish

Freshwater Rules

SPECIES	ADDITIONAL RULES
LARGEMOUTH BASS (See DOH advisory, page 18)	No min. size. Only LARGEMOUTH BASS less than 12" may be retained, except 1 over 17" may be retained. Daily limit 5. Bass may be caught, retained, and released alive from a livewell until a daily limit is in possession.
SMALLMOUTH BASS (See DOH advisory, page 18)	No min. size. Only 1 SMALLMOUTH BASS over 14" may be retained. Daily limit 10. Bass may be caught, retained, and released alive from a livewell until a daily limit is in possession.
TIGER MUSKELLUNGE (TIGER MUSKIE)	Min. size 50". Daily limit 1.
WALLEYE	Min. size 12". Daily limit 8. Only 1 over 22" may be retained. WALLEYE may be caught, retained, and released alive from a livewell until daily limit is in possession.
WHITEFISH	No min. size. Daily limit 15.
BURBOT (FRESHWATER LING)	No min. size. Daily limit 5.
CHANNEL CATFISH	No min. size. Daily limit 5.
CRAPPIE, NORTHERN PIKEMINNOW, PEAMOUTH CHUB, PERCH, SUCKERS, SUNFISH, CATFISH (except CHANNEL), BULLFROGS, ROCK BASS, STRIPED BASS	No min. size. No daily limit.
GRASS CARP	CLOSED.
TROUT:	The combined daily limit for an angler that fishes in both rivers and lakes on the same day is 5 TROUT. In the combined daily limit, only 2 TROUT may be from rivers, except as provided for EASTERN BROOK TROUT.
BROWN TROUT RAINBOW TROUT GOLDEN TROUT TIGER TROUT GRAYLING	In rivers, streams, and beaver ponds: Min. size 8". Daily limit 2. When fishing with bait, all TROUT (except STEELHEAD) equal to or greater than the minimum size are counted as part of the daily limit whether kept or released. In lakes, ponds, and reservoirs: No min. size. Daily limit 5. When fishing with bait, all TROUT (except STEELHEAD) equal to or greater than the minimum size are counted as part of the daily limit whether kept or released.
EASTERN BROOK TROUT (EBT)	In rivers, streams, and beaver ponds: No min. size. Daily limit 5. Anglers may keep up to 5 EASTERN BROOK TROUT, but no more than 5 TROUT total, and no more than 2 can be other TROUT species. In lakes, ponds, and reservoirs: Count as part of the 5 TROUT daily limit.
STEELHEAD	Min. size 20". Daily limit 2. No more than 2 STEELHEAD may be retained as part of TROUT combined daily limit. STEELHEAD may be caught and released until the daily limit is retained unless Mandatory Hatchery Steelhead Retention rule is in effect (see page 16). No annual limit for hatchery STEELHEAD. WILD STEELHEAD RETENTION RULES: ONE wild STEELHEAD per license year may be retained from ONE of the following rivers: Bogachiel River, Calawah River, Clearwater River, Dickey River, Hoh River, Quillayute River, Quinault River, or Sol Duc River, as listed in the special rules.
DOLLY VARDEN/BULL TROUT	When listed as open under the special rules, count as part of the TROUT combined daily limit.

Release of wild STEELHEAD and DOLLY VARDEN/BULL TROUT is required year-round, except where retention is specifically authorized in the Special Rules. In freshwater areas (see handling rules page 13) SALMON, STEELHEAD, and DOLLY VARDEN/BULL TROUT to be released may not be totally removed from the water.

Food Fish

Food Fish

SPECIES	ADDITIONAL RULES/POSSESSION LIMIT
COMMON CARP, SHAD	No min. size. No daily limit. No possession limit. COMMON CARP (no license required) may also be taken by spear or bow-and-arrow.
SALMON (Anglers may not continue to fish for SALMON after the adult portion of the daily limit has been retained.)	Possession limit - 2 daily limits in fresh form. An additional 40 pounds of SALMON may be possessed in frozen or processed form (see pages 10-11). ATLANTIC SALMON may be retained during any open TROUT or SALMON fishery. There is no size limit or daily limit for ATLANTIC SALMON.
FORAGE FISH	No min. size. Daily limit is 10 lbs. in the aggregate with HERRING, SARDINES, SANDLANCE, and ANCHOVIES. Possession limit - 1 daily limit in fresh form. Additional SMELT may be possessed in a frozen or processed form. All SMELT caught must be kept and count toward the daily limit. SMELT may be taken by dip net. Statewide CLOSURE of EULACHON (Columbia River smelt). EULACHON may not be retained unless authorized by emergency rule. <i>Check for announcements in late December.</i>
WHITE STURGEON Columbia River from Bonneville Dam upstream to Priest Rapids Dam including tributaries, and Snake River upstream to Ice Harbor Dam Columbia River from Bonneville Dam downstream, and from Priest Rapids Dam to Chief Joseph Dam, Snake River from Ice Harbor Dam upstream, coastal, and Puget Sound waters including their tributaries.	Min. size 38" fork length in waters downstream of The Dalles Dam, and min. size 43" fork length in waters upstream of The Dalles Dam. Max. size 54" fork length. Daily limit 1. Possession limit: 2 daily limits. Annual limit 2 STURGEON statewide per license year (April 1-March 31). Unless specifically noted in special rules, open only during open Game Fish or SALMON seasons. Please note rules on page 16. Catch-and-release ONLY. Open only during open Game Fish or SALMON seasons unless specifically noted in special rules. Please note rules on page 16.
GREEN STURGEON	CLOSED.

Other

Other

SPECIES	ADDITIONAL RULES/POSSESSION LIMIT
LAMPREY	It is unlawful to take, fish for, or possess PACIFIC LAMPREY, WESTERN BROOK LAMPREY, or RIVER LAMPREY or to use any species of LAMPREY as fishing bait.
NORTHERN PIKE	Statewide: No min. size. No daily limit. No possession limit. Must be dead before being removed from riparian area (immediate vicinity of water body).
Other fish not classified as Game Fish or Food Fish	CLOSED. See definitions on page 10.

Unless otherwise listed under the Special Rules sections, you must follow the Statewide Freshwater Species Rules.

Eat Fish? Advice from Washington Department of Health

Eat Fish, Be Smart, Choose Wisely

The American Heart Association recommends eating fish twice a week as part of a healthy diet. Why? Because fish are nutritious, high in protein, low in saturated fat, and rich in omega-3 fatty acids - essential for a healthy heart and brain. To balance the health benefits in fish with risks from chemical contaminants (like mercury, PCBs, and DDT), choose fish low in contaminants. For healthy seafood choices see www.doh.wa.gov/fish or toll free 1-877-485-7316.

Healthy Tips to Reduce Certain Contaminants (like PCBs)

- Remove skin, organs, and fat before cooking.
 - Grill, broil, bake, or steam fish so fat drips off during cooking.
 - Do not use fat for sauce or gravy.
 - Eat a variety of fish (within legal limits).
- Mercury is not reduced by preparing this way.

FISH ADVISORIES		CONSUMPTION ADVICE			
<p>The following advice is important for everyone. But women who are or might become pregnant, nursing mothers, and children should pay close attention - contaminants can harm the developing fetus and child. If you eat the recommended amount, no other fish should be eaten that week or month. A serving size for an adult (160 lb.) is 8 ounces and for a child (80 lb.) it is 4 ounces of uncooked fish. Check for new and updated advisories before you go fishing www.doh.wa.gov/fish or toll free 1-877-485-7316.</p>

Rivers - Special Rules

With various fish populations across the state being listed under the Endangered Species Act, WDFW must provide as much protection as possible for all life stages of these populations, in particular for rearing juveniles. For many years, the standard stream rule opened rivers, streams, and beaver ponds to fishing for Game Fish from the first Saturday in June – October 31, with an 8" minimum size, 2 fish/day limit. Consequently, much of the juvenile rearing habitat for resident trout and Dolly Varden and anadromous salmon, steelhead, cutthroat, and Bull Trout was open for fishing. As a result, these juvenile salmonids were at risk of being incidentally caught and may have not survived being handled and released, especially if bait was used.

In 2010 we adopted a new management strategy that offered additional protection to stocks in streams draining into Puget Sound and the Strait of Juan de Fuca. In 2012 this strategy was extended to the Coast. As of 2015, Columbia Basin rivers follow the same strategy. The basic rule in these waters is that all rivers, streams, and beaver ponds are **CLOSED** to fishing unless they are listed in the following river sections of the pamphlet (see pages 20-76). These sections detail ALL of the fishing opportunity in these drainages. All other waters in these drainages are closed to fishing. Beaver ponds located within or connected to streams listed as open to TROUT and Other Game Fish follow the same rules as the stream unless otherwise listed.

We have provided a map of these watersheds (below) to get you started on locating an area where you would like to fish. There are also alphabetical listings of open areas (see pages 20, 37 and 50).

Puget Sound and Strait
