### **DETERMINATION OF NONSIGNIFICANCE (DNS)**

**Name of Proposal:** LEWIS STREET ACCESS SITE

**Description of Proposal:**

This project includes the renovation of an existing boat launch ramp on the Skykomish River. This is a double ramp launch, but only one ramp will be replaced. The entrance of this access site will be paved and an area next to the existing vault toilet will also be paved. The specific components of this project are:

1. Replace one dilapidated 12-foot wide by 88-foot concrete plank boat ramp at the WDFW public access site. The new ramp will be the same size and in the same footprint as the existing easterly ramp. The other ramp (westerly side) will be left undisturbed.
2. The new ramp will have Armorflex concrete mat installed at both sides to protect the new ramp and the existing ramp from premature degradation and undermining.
3. Pave the entrance to the access site and the pad next to the existing toilet to provide ADA parking and accessibility.
4. Regrade remaining gravel parking areas.
